## I do like to be beside the seaside... (episode four)

- Presenter - Today on "I do like to be beside the seaside" we are back by beautiful lake Galilee. Today we will look at all the exciting seaside activities available in this part of the world. What are you going to show us today?
- Guide - Well, Galilee is a traditional sort of place. This isn't the destination for thrill seekers, just good old seaside fun. There are no roller coasters or kite surfing here - nothing out of the ordinary - but still, you should find enough to keep you busy.  
...Donkey rides are always popular.  
...Building sandcastles is fun for the children..  
...Swimming and paddling in the sea is great for all the family.  
...Night boat trips on the lake can be a real taste of local life - but only when the sea is calm - it can get really choppy out there! Nothing too exciting, but if you want all the normal seaside activities, you won't be disappointed.
- I can see one of those boat trips returning now - I wonder how they got on. Hi - could you recommend a night's boat trip on lake Galilee to our viewers?
- Sailor - I don't know, it was extraordinary! It was scary! Not like anything I've ever seen before. We were on the boat - very calm - all a bit dull really. Then the wind got up and we were in the middle of the worst storm I've ever experienced. I've been fishing on these waters for years but I was convinced we were finished - it was terrifying! But we hadn't taken account of Jesus. He was with us. He wasn't worried. He'd slept through most of it. When we woke him he just stood up and gave the wind and waves their marching orders. Just a word and the wind dropped and, more amazing still, it was completely calm. At that point we were *really* scared? I ask you, what kind of person has that kind of power over nature?
- Guide - Well - I wonder. Someone who is in charge of people, in control life and death - and now nature - and can teach like no-one else... Some people are saying that he's God on earth. Maybe, just maybe...
